READ ME

Everyone,

I converted the Sonatina Symphonic Orchestra 1.0 SFZ files to XI using the wonderful
Python-based Samplicity tool (https://github.com/ckald/Samplicity).

I do not own the rights to Sonatina Symphonic Orchestra, Samplicity, or the XI format.

About Sonatina Symphonic Orchestra (SSO) :
http://sso.mattiaswestlund.net

Sonatina Symphonic Orchestra is a free orchestral sample library. While not as advanced or
ambitious in scope as commercial offerings, SSO contains all the basic building blocks for
creating real virtual orchestrations. It's primarily aimed at beginners, but also more
experienced composers looking for something lightweight and/or portable might find it
useful.

Licensing
SSO is a free (as in speech, and beer) library released under the Creative Commons
Sampling Plus 1.0 license.

Best Regards,
Anthony K. Valley
